Volume: 2, 2026

## Subject Categories

Food Science

Sustainability Science

## Target Audience

This journal is intended for researchers, academics, practitioners, and industry leaders engaged in the dynamic and evolving field of sustainable food science.

Amin Naser Olaimat

Editor-in-Chief

Hashemite University, Jordan

## Message from EiC

As we enter the 2026 volume, Sustainable Food Connect continues its mission to advance scientifically rigorous and innovative approaches that address key challenges across the food system, from farm to table. Building on the strong foundation established in our first year, the journal remains committed to publishing research that supports the United Nations Sustainable Development Goals, with a particular focus on food sustainability, food quality and safety, and nutrition and human health.

We prioritize high-quality, peer-reviewed research that connects science and technology with real-world applications in sustainable food systems. We thank our authors, reviewers, and editorial board members for their valuable contributions and warmly invite researchers worldwide to join us in shaping resilient, safe, and sustainable food futures.

## Aims and Scope

Sustainable Food Connect is a peer-reviewed, open-access journal dedicated to sustainable food practices. This journal aims to publish innovative research and promote significant advancements in the production, processing, distribution, and consumption of food in an eco-friendly manner.

## Key Topics

- Food Packaging
- Food Quality and Safety
- Food Preservation
- Land, Livelihoods & Food Security
- Organic Farming
- Reduced Food Waste
- Food Economics
- Consumer Behaviors
- Food Engineering
- Food Development
- Safe Food Processing
- Sustainable Diets
- Functional Foods
- Sustainable Food Production
- Sustainable Food Systems
- Sustainable Food Technology
